

COMMONWEALTH OF KENTUCKY
BEFORE THE UTILITY REGULATORY COMMISSION

* * * * *

In the Matter of:

THE APPLICATION OF GOSHEN UTILITIES, INC.)
FOR (1) AN ADJUSTMENT OF WATER SERVICE)
RATES AND CHARGES AND SEWAGE RATES; AND) CASE NO. 7797
(2) APPROVAL OF THE PURCHASE AGREEMENT)
OF CARDINAL HARBOUR SANITATION)

O R D E R

The Commission, by order dated October 27, 1980, granted a rehearing in this matter and set the date of that rehearing for November 14, 1980. As a result of the petitions for rehearing, the Commission has reviewed its order and the annual reports filed by the utility specifically related to the number of customers and usage contained in the billing analysis used to design rates in this proceeding. Based on this review, the Commission notes that the annual report for 1979 shows usage of 5,760,000 gallons over and above a 6,000 gallon minimum and unmetered sales to Harmony Landing Country Club and through public fire hydrants of 8,640,000 gallons. This consumption was not included in the billing analysis filed as Exhibit 11 in this case.

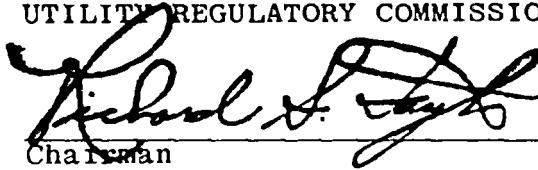

IT IS THEREFORE ORDERED that on or before November 7, 1980, the company shall provide the following information:

- (1) An explanation of why the billing analysis contained in Exhibit 11, page 1 of 4, was not adjusted to include consumption of 5,760,000 gallons in excess of the 6,000 gallon minimum and the consumption by Harmony Landing Country Club and through fire hydrants.
- (2) An adjusted billing analysis based on the proposed rate blocks reflecting the consumption of 5,760,000 gallons in excess of 6,000 gallon minimum.

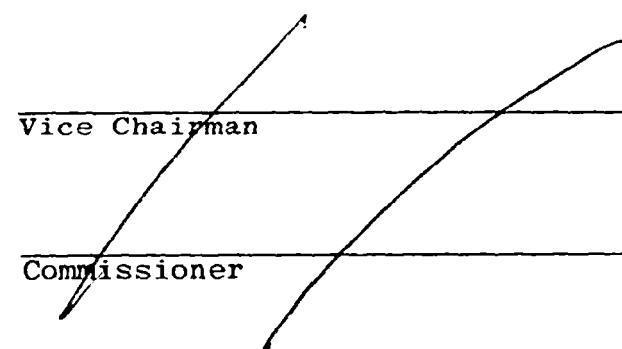

- (3) An adjusted billing analysis based on the proposed rate blocks reflecting the 5,760,000 gallons in excess of the minimum and the usage of Harmony Landing Country Club.
- (4) A billing analysis based on the proposed rate structure reflecting 2 and 3 above plus consumption through public fire hydrants.
- (5) The number of water customers, by classification, at the end of each month from December, 1978, through September, 1980.
- (6) The number of sewer customers at the end of each month from December, 1978, through September, 1980, for Cardinal Harbour and Goshen and the total for both systems.

Done at Frankfort, Kentucky, this 28th day of October, 1980.
